IMAGERY INFORMATION REPORT

FIRST IDENTIFICATION OF SA-6 EQUIPMENT IN INDIA (S)

(S/WNINTEL) SA-6 equipment was identified for the first time in India at Bombay Port Facilities [REDACTED]

25X1

(S/WNINTEL) Equipment observed included 16 probable SA-6 transporter-erector-launchers (TELS), four STRAIGHT FLUSH radars, and 20 electronics van trucks/trailers. In addition, four FRESCO-type shipping containers and at least 24 T-54/55 tanks, some of which were still being offloaded from a merchant ship at the mole at Alexandra Dock, were observed (Figures 1 and 2). Some of the equipment (not all depicted on the graphics) was on a road within the facility, on flatcars, on barges, and on the merchant ship within the port area.

(S/WNINTEL) One train (not illustrated) carrying six probable SA-6 TELs and nine electronics van trailers was at the railyard adjacent to Bombay Equipment Depot No 2 Indian Air Force [REDACTED]
